37 ranch welcomes "Thunder Kitty." an own daughter of the great Thoroughbred stallion "Storm Cat." My daughter and granddaughter greeted her on her arrival to South Dakota. Her offspring have won over \$240,000 on the track. Thank you to Dalene Knight for giving me this opportunity

WELCOME TO the 37 Ranch

at Parkston, South Dakota. We are located 20 miles south of Mitchell, which is along Interstate 90, in southeast South Dakota. The main goals of the operation are to perpetuate the American Quarter Horse through the best proven blood lines. The program consists heavily of the Three Bars lines; Through Magnolia Bar, St. Bar, Sugar Bars, and Doc Bar. With added influence from Leo and King. There are many other good blood lines in the breed, this was the direction I chose to build a program around. The key things to remember, "Champions come from championship blood not from color". I've never had a colt born without color.

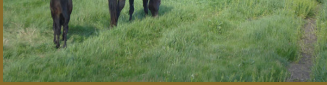

My feature stallion is Sugars Smart Legacy, whom I believe to be the youngest siring grandson of the immortal Sugar Bars. I also place extremely high emphasis on the mother side, as you will see in my broodmares. Sugars mother was an own daughter of Smart Chic Olena out of an own daughter of Mr Baron Red. This young stallion's first colts are just starting under saddle this year. Due to large numbers of horses I have closed the book on this stud. His offspring is only available from the finest mares of the 37 Ranch. Bred for speed in the arena and versatility in the show ring.

I also had the honor of owning the great reining horse and sire "Gunstart" for the last five years of his life. He passed in July of 2007. This great horse was the 1983 junior reining champion of the Congress and placed 3rd at the world show also. He was a leading reining sire, with two offspring attaining reserve champion at the National Reining Horse Futurity. I have one daughter from him.

Thank you for visiting the website, browse through the horses and check the Sale Barn. If you have any questions contact me via email or by phone. Day Phone, 605-928-7190 Cell Phone 6057707855.
